Saturday, September 26. 1718.

London, September 26.

Yesterday arrived a Mail from Holland.

From the Hague Courant, dated Sept. 16.

Madrid, September 5.

ON Tuesday, a Courier dispatch'd by Cardinal Acquaviva from Rome, arrived here, with Advice, that our Fleet was defeated by the English, which occasioned great Consternation, altho' we were not willing to give full Credit to it. But repeated Advices of the same News from Genoa, Barcelona, and from the Marquis de Lede himself, have too much confirmed it to leave any Doubt. Herupon several Orders are sent to our Ministers in France, England, and Holland, and the Cardinal keeps himself shut in the Escorial, without coming to this City.

From the Amst. Gazette, dated Sept. 27.

Bilboa, Sept. 8. The Court having, in Contradiction to the ancient Privileges of this Province, established here the same Impositions as at Alicante, of the Country, to the Number of 5000, (other Advices say 8000) have taken Arms, and enter'd this City crying out, *Long Live the King and our ancient Privileges*, where they have burnt the Custom-house, and some neighbouring Houses, and kill'd 14 Commis, or principal Officers of the Taxes. Don Fernando de Mata Governor of the City is fled, and the Prince del Campo Florido Viceroy of the Province is retired from St. Sebastian into Fontarabia. In the mean time, the Magistrates having promis'd to do all they can for restoring the ancient Privileges of the Province, the Malcontents have discontinued to commit any further Disorders, and 'tis hoped, that upon the Advice of this, the Court will give the necessary Orders for preventing the like Commotions for the future.

From the Amst. Courant, dated Sept. 27.

Bilboa, Sept. 6. Since last Sunday here has been a general Uproar, all the Country People having taken Arms, to recover the ancient Privileges that have been taken from them. Here are already 10 or 12 Houses plunder'd, and all the Goods found in them burnt. One of the principal Lords of this Country is kill'd, and three or four particular Persons are wounded, and others fled. Here are at present 8000 arm'd Peasants in this City, so that every Man is in Fear for his Person and his Goods. Among those that are fled is the chief Director of the Collection of the Taxes. Every body took away their Goods as well as they could from the Custom-house, but there soon broke out a general Plunder, so that no Man durst bring any Goods into the Street. The Ferment begins now to abate, the Burgers, and the principal Gentlemen of the Country round about, having promis'd the Magistrates to help them in recovering their Privileges. The whole Burgers have also put themselves under Arms, to defend their own Houses. Seven or Eight Houses belonging to the City, have been

burnt, and among them, that of the Patagon de Begona. The Letters sent from hence last Sunday for Madrid, were seized and carried off by the Peasants.

From the Amst. Gazette, dated Sept. 27.

Bayonne, Sept. 10. There is a general Insurrection in Biscay, all the Peasants being in Arms, demanding that they be restor'd to the Enjoyment of their ancient Privileges. They write from Bilbao, that there are 8 or 10000 arm'd Men in that City, who have pillag'd the Custom-house, and divers other of the most considerable Houses, some whereof they burnt. 'Tis added, that the Burgers promis'd to join with them, and to assist them in obtaining their Privileges, provided they would cease their Pillage. Those of Guipiscas appear dispos'd to follow the Example of the Biscaynens. The Governor of that Province, who is an Italian, is fled from St. Sebastian into Fontarabia.

From the Hague Courant, dated Sept. 16.

Gibraltar, Sept. 10. Admiral Byng is come with five Men of War to Reggio, and has sent the Spanish Ships that were taken in the Fight to Port Mahon. The rest of the British Men of War are cruising on the Coast of Sicily.

Turin, Sept. 10. Two Battalions of Weizel enter'd the Citadel of Messina the 21<sup>st</sup> of August, and two Companies into the Fort of San Salvador. Two Battalions are also put into Syracuse, and on the 24<sup>th</sup> of August Nine more Battalions were shipp'd at Reggio, to go to Sicily; where the Inhabitants already begin to declare for the Emperor.

From the Amst. Gazette, dated Sept. 27.

Vienna, Sept. 14. This Morning at Seven a Clock, the Empress was brought to Bed of an Archduchess, Infanta of Spain, &c. who will be Baptiz'd this Evening, and Prince Eugene is to stand Godfather. The Court has received an Express from the Viceroy of Naples, dispatch'd the 3d of this Month, with Advice, that Admiral Byng having divided his Fleet, he had sent half of it to Port Mahon with the Spanish Ships and Prisoners, and with the other half he cruizes round the Island of Sicily, to hinder the Spaniards from getting off. 'Tis added, that the Spaniards continue to batter the Citadel of Messina, and the Fort of San Salvador, and that the Count de Staremberg, Nephew of the Marshal and Colonel, commanding his Regiment, is enter'd into that Fort and Citadel with the German Troops. They write further, that all Sicily is in Confusion, the greatest Part of the Inhabitants beginning to declare for the Emperor, whose Government of it they look upon as to be near at hand. The Chevalier Procurator Ruzzini, who assist'd in the Congress at Passarowitz, in Quality of Plenipotentiary Ambassador of the Republick of Venice, arriv'd the 11<sup>th</sup> Instant in this City. 'Tis continued to be said, that the Count de Virmond will go to Constantinople in Quality of Ambassador from the Emperor, and that the first Ambassador of the Ottoman Porte at the Congress

Congress of Passarowitz, will come hither from the Grand Seigneur. Some Advices from Transilvania say, that the Grand Seigneur has sent a considerable Body of Troops towards the Ukraine, and that the Cham of the Tatars was expected at Constantinople to assist in the great Divan. 'Tis assur'd, that the Ottoman Porte insists very strongly upon the Russians Departure from Poland, and upon the Execution of the 5th Article of the Treaty of Pruth. The seven Imperial Regiments design'd for the Execution of the Imperial Mandate against the Duke of Mecklenburg continue their March: But in the mean time, we continue to hope, that that Affair may be made an End of by the Way of Accommodation.

Hague, Sept. 25. Two Days ago the Marquis de Chateaufort, late Ambassador from the most Christian King to the States General, departed from hence to return to the Court of France. The same Day Baron Herms, Envoy Extraordinary of the Emperour, receiv'd an Express from Brussels, and was in Conference with the Deputies of their High Mightinesses, of whom he demanded a Passport for the Equipage of the Marguis de Priès, who is to come hither forthwith, to put the last Hand to the Affair of the Barrier.

From the Amst. Courant, dated Sept. 26.
